

Rolling Sculpture
Photographs by Joe Lipka

Rolling Sculpture

American Males of a certain age love automobiles. I was fortunate enough to experience the golden age of the American Muscle Car. Corvettes, Mustangs, Camaros and Chargers were the objects of our teenage lust. We fantasized that anything was possible if you were behind the wheel of your very own Muscle Car.

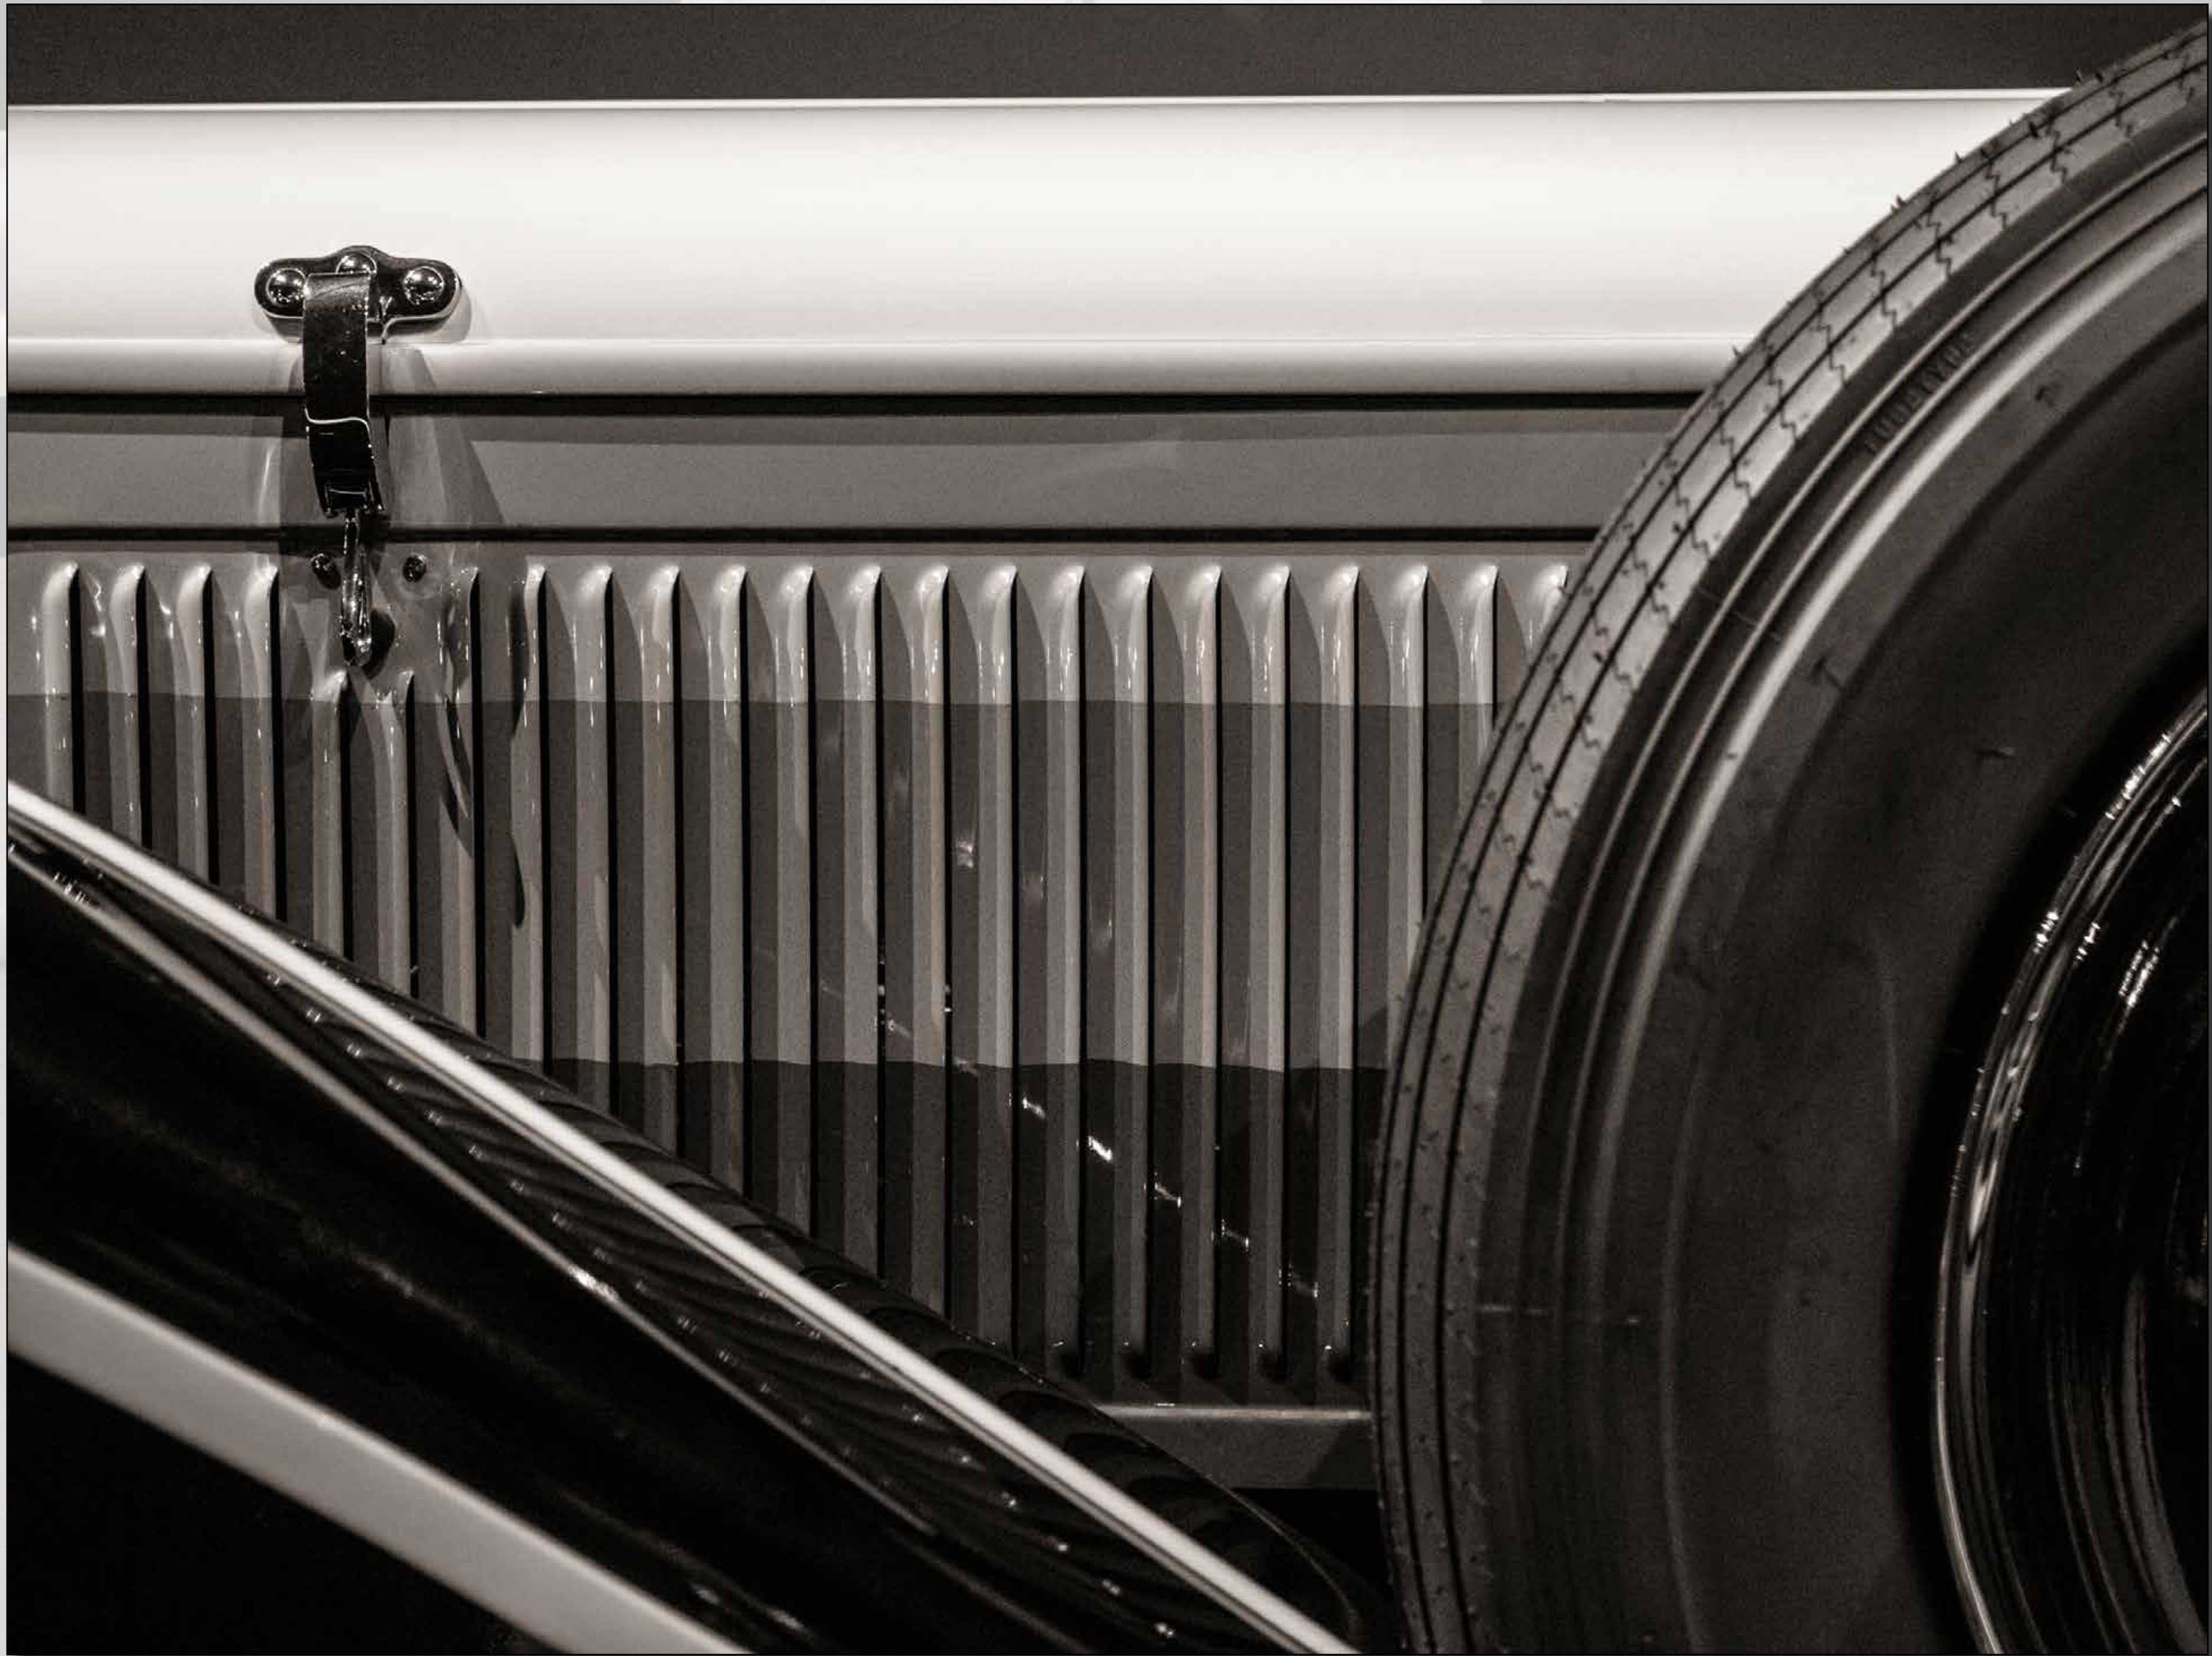

Times have changed, tastes have changed and with a certain level of maturity, I appreciate the full spectrum of automotive beauty. During the 1930's the Art Deco movement extended to the design of automobiles of uncommon beauty. The North Carolina Museum of Art exhibited a collection of these automobiles in 2016. Some fascinations and affections cannot be dimmed by the passage of time. I visited the exhibit with camera in hand.

There is no great artistic motivation behind these photographs. I have no real deep philosophical or psychological reason to make these photographs. I am the latest in a line of craftsmen that designed, built, and restored these mobile sculptures; my self-assigned task was to present to you the lines, forms, seams of some beautiful automobiles.
